At Our Nursery

LAST fall our perennial plants made exceptionally good growth, and we have a fine stock of large sturdy specimens for your gardens. These will be ready as soon as the ground thaws out and new growth gets started in the spring. You are cordially invited to come to our nursery and take advantage of our cash-and-carry prices. Our sales yard is being arranged as nearly as possible on the self-help plan, and you may walk around at your leisure and enjoy selecting those varieties that will be best suited for your garden. Many new and better varieties will be on display, and you will want to try some of them. Half the fun of gardening is in trying the new things.

In many instances we are listing two sizes of perennial plants—regular field clumps and small plants. The latter are selected one-year-old plants that have not been transplanted, or they are young plants that have been propagated during the winter. All should bloom this season and give a good account of themselves.

We have plenty of parking space and a circle drive for easy entrance and exit. We are open all day Sunday during May.

Because of war conditions it will be necessary to curtail production and eliminate some of the varieties we had planned to grow; however, we are endeavoring to overcome unexpected handicaps.

You Will Like These in Your 1951 Garden

HARDY ASTERS—Peace, Prosperity and Plenty.
Beautiful large-flowered **Giant Pacific DELPHINIUM**.

DAYLILIES—Rajah, Linda and Hyperion

CHRYSANTHEMUMS—Golden Hours, Mary Harrison, Avalanche

DIANTHUS—Little Joe

TETRA SNAPDRAGONS—Pink, Yellow, Mixed Colors.

It is easy to get to PERKINS BROS. NURSERIES

We are located on the St. Paul-Stillwater Road, which is a part of Minnesota U. S. Highway 212, about a mile from St. Paul city limits.

To drive to the nursery from St. Paul's business district, take East Seventh Street to East Minnehaha Street, east to East Avenue, Paved road to left (Highway 212).

From St. Anthony Park, take Larpenteur Avenue and Wheelock Parkway to Arcade Street, south on Arcade to Maryland, east on Maryland to White Bear Avenue, south on White Bear Avenue to Stillwater Avenue, east to nursery.

The hourly bus service from St. Paul to Stillwater passes our nursery. Fare from St. Paul, 15 cents.

From Wisconsin points, cross the St. Croix River at Hudson or Stillwater. If crossed at Hudson, go to Stillwater and from there follow Highway 212 to our nursery, or follow U. S. 12 to Tanners Lake, north on Highway 100 to Highway 212, west ¼ mile.

Garden Chrysanthemums

Ideal Plants for a Gorgeous Garden Display in Fall

Introductions by the University of Minnesota

The Minnesota group of Chrysanthemums is especially adapted to regions experiencing early frost, because of their extra-early flowering habit and long blooming period. Many colors are available, and all are suitable for cutting for home use. We are propagating the best of the varieties that have been introduced, and they have never failed to come into blossom before hard frosts come.

Plants from 2½-in. pots, each 40c.; 3 for \$1.10; 6 for \$2.00, postpaid

Plants from 2-in. pots, each 25c.; 6 for \$1.40, postpaid

Potted plants available in spring only. Field clumps (in fall) each 75c.

Butterball. Low, compact plant with flowers borne freely on moderately long stems. The flowers are ball-like in form, with rays incurved, 2½ inches in diameter, dark lemon-chrome in color. Starts blooming about August 15. An outstanding variety.

Chippewa. Bushy plant 20 inches tall or more, with many stems. Flowers aster-purple, 2¾ inches across, in large clusters; semi-double to double, aster-like and incurved. Very showy and good for cutting. Early to midseason. A fine variety and very popular.

Dr. Longley. Plant upright, of medium height; flowers largely borne singly on rather long stems, making it desirable for cut flowers. Very floriferous. Color is amaranth-pink to rose-pink; does not fade in hot weather. Flowers are large, 2½ to 3 inches or more, full double. Blooms early to midseason and keeps on blooming till frost time. The best Minnesota variety to date.

Maroon 'n' Gold. This variety forms a rather low plant, bearing the flowers in large trusses. The blooms are large, 3½ inches or more in diameter, full, double, incurved. Rays are Brazil-red to maroon in color above, and golden on the under side. Blooms early and freely. Very popular.

Moonlight. An upright bush variety of low to medium height, bearing large trusses. Reflexed flowers 2½ to 3 inches in diameter, white with the center pale yellow to ivory. Blooms from midseason to late. Good for cutting when large sprays are desired.

Purple Star. Tall and upright in growth, with long stems; floriferous. Bright dahlia-purple flowers, semi-double to nearly double, the rays formed in such a way as to make the flower star-like in appearance; 2 inches in diameter. Early.

Red Gold. Plant medium tall, very stiff and upright. Flowers double, 2 inches in diameter, scarlet to Brazil-red. Midseason.

Redhawk. Plant upright in habit, of medium height. Flowers are in clusters on long stems, double, with some rays quilled, 2 inches or more in diameter. The color is dragon's-blood-red to Brazil-red. Starts blooming in mid-August.

Redwood. A low compact type of plant, bearing semi-double flowers 2 inches in diameter. The color varies from carmine to oxblood. The season is mid-August to frost.

Silver-Pink. Plant upright in growth, of medium height. Flowers in large clusters on long stems, double, 2½ inches in diameter, soft amaranth-pink to Tyrian-pink with a silvery sheen. Good cut-flower type. Early to midseason.

Violet. Plant rather spreading, recumbent the first year but very stiff and upright and moderately tall the second year. Blooms are fairly abundant. Very full, double flowers, dahlia-like, incurved, deep amaranth-purple to pansy-purple, 3 inches in diameter. Midseason to late.

MUM CULTURE

Soil:

Any good garden soil.
Well prepared.
Well fertilized.

Plenty of sunshine.

Planting:

Best time, May 15 to June 1.
Distance apart, 18 inches to 2 feet.

Pinching:

Best time, about June 15.
Where? Cut off the top of the plant between the fourth and fifth leaves from the ground.

Plenty of water.

Freedom from weeds.

Spraying (not always necessary):

For aphids use Black-leaf 40.
For disease on leaves use Bordeaux Mixture.

RESULTS: Beautiful Flowers!

CHRYSANTHEMUM, VIOLET

Other Choice Colorful Varieties of Mums

Plants from 2½-in. pots, each 40c.; 3 for \$1.10; 6 for \$2.00, postpaid
 Plants from 2-in. pots, each 25c.; 6 for \$1.40, postpaid
 Potted plants available in spring only. Field clumps (in fall) each 75c.

CHRYSANTHEMUM, PYGMY GOLD

Avalanche. 2 ft. A very desirable early-blooming, large-flowered, double white variety, the center petals being cream-colored. The 3½-inch flowers are borne on strong stems; fine for cutting. Admired by all visitors at our nursery.

Charles Nye. Plant medium height; deep green foliage. Large, 3-inch, fully double, rounded flowers of rich buttercup-yellow.

Chris Columbus. 30 in. A new white pompon with yellow buds; long, strong, sturdy stems. Especially good for cutting. Said to be super hardy. We would class it as late.

Courageous. Bright dark ruby-red blooms, 3½ inches in diameter. Sept.

Dainty. Double flowers of a beautiful blend of light lavender aging to soft white with a silvery cast. Early. Plant intermediate in height.

Early Harvest. Plant low growing, with double flowers of glowing mahogany-orange, 2½ to 3 inches in diameter. Aug. to Oct.

Eugene A. Wander. Extra-large, double, glistening yellow flowers on bushy, 18-inch plants. A very popular variety.

Glowing Coals. A good early red. Bright cherry-red with orange reverse. Sept.

Golden Hours. (Chicago.) Large, fully double, deep lemon-chrome flowers.

Heatherbloom. Plant vigorous, of medium height. Flowers double, 2¼ inches in diameter, heather-pink.

Mary Harrison. (Chicago.) Bright glowing aster-purple; semi-double.

Miss Lace. Fully double; 3-inch flowers of light pink, borne on upright stems. Height 2½ feet.

Murmurs. Early. Opens amaranth-pink, aging to mallow-purple. Petals broad and incurved.

Olive Longland. A grand double flower with petals slightly incurved; apricot toned salmon-pink. Sept.

Paper White. Pure white flowers; double and of good texture. Early. Height 18 inches.

Pearl Parkinson. (Univ. of Nebraska.) Semi-double flowers 3 to 4 inches in diameter, golden yellow flushed red to red. Plant upright, 2 feet tall. Sept. 2½-in. pots only.

Polar Ice. Clear, glistening blue-white flowers 2½ to 3 inches across; upright stems 20 inches tall.

Ponca. (Univ. of Nebraska.) 28 to 34 in. Plant upright, with dark green foliage. Full-double flowers that resemble small zinnias and are borne in clusters; deep purple-red. Sept. 2½-in. pots only.

Prelude. (Chicago.) Very large, double flowers. The color is a combination of flesh-pink and maize-apricot.

Pygmy Gold. A dwarf pompon type producing quantities of miniature blossoms. The color is clear golden yellow. Commences to bloom in early September.

Red Velvet. 2 ft. A fine full double crimson Chrysanthemum. Late September.

September Dawn. Large, double, rose-pink flowers. Sept.

Southwind. Sturdy branched plants bearing many Chinese-red flowers. Sept.

Tangerine. A 1947 introduction. Double; brilliant Spanish-orange.

Wychwood. A lovely yellow Mum. Flowers fully double, globular, rich clear canary-yellow. Good plant habit.

Yellow Avalanche. Similar to Avalanche but clear soft yellow.

5302. Large, bushy plants about 2 feet tall, spreading. The single flowers, nearly 3 inches in diameter, are of a beautiful salmon-pink with yellow center. Many have two rows of petals. Starts blooming in September. Made an unusually attractive display at our nursery.

Low-Growing Cushion Chrysanthemums Each 35c.; 5 for \$1.50

Bushy plants of low to medium height, producing an abundance of flowers. These varieties are also sold under popular "trademark" names.

Pink Yellow Bronze Early Red White

CHRYSANTHEMUM GARDEN

PERKINS Fine Outdoor *ROSES*

All our Roses are planted in the large Cloverset pots. These sturdy green plants are easily set out in your garden without danger of wilting or being disturbed.

NOTE: Roses cannot be sent by mail. Due to present high express rates, we recommend that not less than 3 plants be ordered for shipping.

Beautiful Everblooming Hybrid Tea Roses

Each \$1.50; 3 for \$4.25; 10 for \$13.00

Caledonia. Large, full, pure white flowers on long stems. A healthy, vigorous grower. Fragrant.

Chas. K. Douglas. Bud long pointed; flower large, double, scarlet flushed velvety crimson. Fragrant; vigorous.

Christopher Stone. A fine red variety, producing many fragrant, brilliant, glowing velvety scarlet-crimson blooms of good form.

Editor McFarland. Shapely buds and perfectly formed, brilliant rose-pink flowers. Plants vigorous and free blooming.

Etoile de Hollande. One of the finest dark red Roses for general purposes. Very fragrant and a free bloomer.

Glowing Carmine. Lasting, fragrant flowers of deep carmine. Continuous bloomer.

Golden Rapture. A splendid yellow Rose of upright growth.

Grenoble. A vigorous grower producing many scarlet-crimson flowers on long stems.

Hadley. Very large, rich crimson, well-formed, double flowers; very fragrant. Foliage rich green. Vigorous.

Lady Margaret Stewart. Long-pointed buds, opening to very large, double, high-centered, deep buttercup-yellow flowers, flushed orange. Fragrant.

Los Angeles. Perfectly formed, long-pointed buds and double blooms with reflexed petals; luminous flame-pink toned coral.

Mme. Jules Bouche. Long-pointed buds, excellent for cutting. These open to superb fragrant white flowers with a slight shading of blush-pink.

McGredy's Yellow. Well-formed flowers of bright buttercup-yellow. Bronzy green foliage.

Picture. A Rose of medium size but exquisite form. Blooms rich pink with warm undertones of salmon. Plant strong and vigorous.

Poinsettia. Brilliant red. A good grower and a fine cut flower.

Rose Marie. Double, cupped, rose-pink blooms are borne singly on long stems. A vigorous grower and profuse bloomer.

Talisman. A very popular Rose with multicolored flowers of scarlet, orange and rich yellow. Fragrant and free blooming.

The Doctor. Beautiful silvery pink. Flowers large and intensely fragrant.

Orders for unpotted Roses, to be shipped about April 5, will be accepted at a discount of 25c. per plant. After April 1, orders will be taken for potted plants only.

NOTE: To keep Rose foliage free from disease and eating insects, dust the plants about every 10 days with a mixture of 9 parts dusting sulphur and 1 part arsenate of lead. If troubled with aphids, spray with a nicotine solution, following the instructions on the container.

ROSE, PEACE

Patented Hybrid Tea Roses

Charlotte Armstrong. Pat. 455. Foliage leathery, deep green and highly resistant to mildew. Flowers cerise in hot weather and spectrum-red in cool weather. Each \$1.75.

Crimson Glory. Pat. 105. Buds long-pointed. The large, semi-double, deep velvety crimson flowers are very fragrant and long lasting. Foliage abundant and leathery. Each \$1.75.

Forty-niner. Pat. 792. A brilliantly colored bicolor Rose. Rich chrome yellow and Orient red. Long-pointed buds. Plant vigorous. Each \$2.00.

Katherine T. Marshall. Pat. 607. Bud salmon-pink; flower rose-pink, large, double, fragrant. Each \$1.60.

Lowell Thomas. Pat. 595. The long slender buds open to lemon-chrome-yellow. Plant vigorous. Each \$1.75.

Mandalay. Pat. 775. Long-pointed, golden yellow buds. Large, high-centered blooms on long stems. A free-blooming, large yellow Rose. Each \$2.25.

Mirandy. Pat. 632. Dark green, heavy-textured foliage. Blooms a rich dark red. Fragrant. Each \$1.75.

Nocturne. Pat. 713. Bud long pointed; flower cardinal-red to crimson. Upright grower; vigorous. Each \$1.75.

Peace. Pat. 591. Large yellow buds opening to pale yellow changing to soft rose and later to white with pink scallops. Foliage dark glossy green. Each \$2.25.

Rex Anderson. Pat. 335. Foliage gray-green; flowers pale lemon-yellow to white. Each \$1.75.

Signora. Pat. 201. Flowers orange-apricot turning to apricot suffused yellow. Very vigorous. Each \$1.60.

Sutter's Gold. Pat. 885. Long-pointed, bright yellow buds shaded orange-red. Very vigorous. Each \$2.25.

Tallyho. Pat. 828. Buds ovoid in shape, opening to a delightful shade of pink with a spicy fragrance. Each \$2.25.

Floribunda Roses

Betty Prior. Pat. 340. Flowers single, carmine-pink, borne in clusters; blooms profusely. Vigorous. Each \$1.50.

Fashion. Pat. 789. All-America Rose Selection of 1950. Pointed buds of luminous coral-pink. Flowers like those of a Hybrid Tea Rose. Each \$2.25.

Pinocchio. Pat. 484. Flowers pink suffused salmon. Foliage leathery. Each \$1.50.

Rosenelfe. Dainty clusters of La-France-pink flowers, suitable for cutting. Each \$1.50.

World's Fair. Pat. 362. Large clusters of velvety rich scarlet flowers. Fragrant. Each \$1.50.

Perennials . . .

For Greater Permanency of Your Garden CHOICE AND SELECTED VARIETIES

Achillea (Yarrow)

Ptarmica, Angels' Breath. 20 in., spreads 2 ft. Pure white, fully double flowers in great profusion. Each 50c.

Ptarmica, Snowball. 18 in. June to Sept. An improved small, double-flowered white Yarrow growing in ordinary soil. Suitable for cutting, and is fine as a filler in bouquets. Each 40c.

Aconitum (Monkshood)

Fischeri. 2 to 3 ft. Sept. Blue flowers shaped like a monk's hood. Prefers a rich soil and some shade. Needs winter protection. As Aconites contain poisonous substances, they should be kept away from children. Each 50c.

Adenophora (Spire Bell)

Potanini. 3 ft. Bell-shaped blooms on tall spikes. The blue-violet flowers are 1 inch across and resemble the Campanulas. Each 45c.

Agrostemma (Rose Campion)

Coronaria atrosanguinea. 2 ft. Sometimes called Dusty Miller. The blood-red flowers rise from a tuft of gray-white foliage. 1-yr. plants, each 30c.

Anchusa (Alkanet)

Dropmore Variety. 3 to 5 ft. Blooms in early summer and later if first flowers are cut as soon as wilted. Foliage rough and hairy, slightly gray. Flowers rich gentian-blue, in loose panicles. A rather coarse-appearing plant but fine in masses or as a border. Does best in partial shade. Each 40c.

Myosotidiflora. A dwarf form from Russia. Clusters of large leaves and bright blue, forget-me-not-like flowers. Each 50c.

Aquilegia (Columbine)

Columbines are one of the most beautiful of hardy plants and are grown for their profusion of graceful flowers in early summer.

Akitensis. 1 ft. A rare Alpine form bearing soft, blue flowers, tipped creamy white. Early spring. Each 50c.

Blue King. Large flowers of medium blue. Each 40c.

Clematiflora. A spurless Columbine with beautiful open flowers like Clematis. Mixed colors. Each 40c.; 1-yr. plants, each 25c.

Flabellata nana. 1 ft. Dwarf, compact clumps of blue-silver foliage, with milk-white, short-spurred blooms. An interesting Columbine. Each 45c.

Mrs. Nicholls. 2 to 3 ft. A choice blue and white, large-flowered Columbine. Each 50c.; 1-yr. plants, each 25c.

Longissima. Yellow flowers with extra-long spurs. Each 40c.; 1-yr. plants, each 25c.

Mrs. Scott Elliott's Hybrids. A refined long-spurred strain. Includes many choice clear colors. Each 40c.; 1-yr. plants, each 25c.

Purple. 2 to 3 ft. A short-spurred, purple-blue Columbine. This color is seldom seen in the ordinary hybrid strains. Each 40c.

Snow Queen. Large, pure white flowers. Each 40c.; 1-yr. plants, each 25c.

ALYSSUM SAXATILE COMPACTUM

Alyssum (Basket of Gold)

Saxatile compactum. 1 ft. One of the earliest flowering plants; suitable for the border or the rock-garden. It has bright spreading clusters of golden yellow flowers. Foliage gray-green. When ripe the seed-pods have a lace-like appearance and may be used in winter bouquets. Each 40c.

Saxatile citrinum. Lemon-yellow flowers. Each 40c.

Anthemis (Yellow Daisy)

Moonlight. 2½ ft. A choice variety of the hardy Marguerite producing pale yellow flowers over 2 inches in diameter, all summer. Each 40c.

Arabis (Rock Cress)

Alpina, Snowcap. 6 in. A low-growing plant especially suited for edging or the rock-garden. Foliage is gray-green. In early spring the plant is covered with masses of white flowers. Can be used for cutting. Each 40c.

Rosea. Similar to above. Flowers pink. Each 40c.

Quantity Prices for Perennials

25c. plants, 3 of a kind for 65c.
30c. plants, 3 of a kind for 85c.
35c. plants, 3 of a kind for \$1.00
40c. plants, 3 of a kind for \$1.10
45c. plants, 3 of a kind for \$1.20
50c. plants, 3 of a kind for \$1.25
12 plants for the price of 10

We prepay postage on all orders amounting to \$2.00 or more. On smaller orders, please add 25c. to help cover cost of handling.

Armeria (Sea-Pink)

Armerias prefer dry sandy soil in a sunny location.

Lauchena. A dwarf, tufted plant with grass-like leaves and bright rosy flowers all summer. Each 40c.

Bees' Ruby. Extra-large, bright rosy red flowers. Each 40c.

Artemisia (Sage-Brush)

Lactiflora. 3 ft. Aug.-Sept. A tall-growing plant with finely cut foliage and heads of fragrant white flowers. Good for cutting. Each 40c.

Silver Beauty. 3 ft. A white-leaved plant used for contrast. The silvery flowers are fine in bouquets, and may be dried for winter use. Each 40c.

Silver King. 3 ft. Similar to Silver Beauty in growth and color but the leaves are more finely cut. Each 40c.

Asclepias (Butterfly-Flower)

Tuberosa. 1½ ft. July-Aug. A very showy perennial. Umbels of brilliant orange-colored flowers suitable for cuttings. Should have well-drained soil. 1-yr. plants, each 30c.

Astilbe

Fanal. 1 to 2 ft. Feathery spikes of fiery crimson flowers in May and June. Foliage attractive and good looking at all times. Prefers shade. Each 75c.

Gloria. 1 ft. A beautiful low-growing variety producing many spikes of pink flowers. Each 50c.

Asters (Michaelmas Daisies)

Masses of Michaelmas Daisies are the glory of the autumn garden. They are hardier than chrysanthemums, and, the taller varieties will form a charming background of bright color for your border. Will do well in any good garden soil.

Adorable. 4 to 5 ft. Sept.-Oct. A hardy Aster with habit and growth similar to that of Harrington's Pink. Flowers salmon-pink. Clumps only. Each 50c.

Beechwood Charm. A semi-dwarf variety with small, brilliant crimson flowers which completely cover the plant. Very showy. Each 50c.

Blue Plume. Rich deep purple, nearly double flowers. Suitable for cutting. Each 50c.

Climax. 5 ft. One of the best, with pyramidal spikes of light blue flowers. Good for cutting. Each 50c.

Hilda Ballard. Large flowers of beautiful opalescent mauve. Each 50c.

Lavender Giant. 4 ft. Early Sept. Large lavender-blue flowers. Each 50c.

Little Red Boy. 18 in. Compact plants completely covered with red flowers in September. Each 50c.

Mt. Everest. 3 to 4 ft. Beautiful sprays of clear white flowers with a small yellow center. Each 50c.

Peace. 3½ to 4 ft. The semi-double, pinkish lavender flowers are 2 inches across and are produced freely. An outstanding, beautiful Aster. Each 50c.

Plenty. 3½ to 4 ft. A fine new hardy Aster, bearing large quantities of soft blue, semi-double flowers 2 inches in diameter. Each 50c.

Pacific Amaranth. 1 ft. A compact plant beginning to bloom in August. The amaranth-colored flowers are borne on sturdy stems. Each 50c.

Prosperity. New. Large rose-pink flowers in September and October. Each 50c.

Violetta. 2 ft. During September the plant is completely covered with semi-double, deep rich blue flowers. Each 50c.

NOTE. Small plants of any variety above except Adorable available at 30c. each.

CARNATIONS

Baptisia (False Indigo)

Australis. 3 to 4 ft. Forms a spreading bush with dark bluish green leaves and bears lupin-like, blue flowers. The seed-pods may be used for winter bouquets. Perfectly hardy. Each 40c.

Boltonia (False Chamomile)

The Boltonias are of easy culture, growing in any soil and even in partial shade. To produce large flowers divide the clumps every three years, or cut out some of the stems in the spring. The head of the plant is wide spreading and bears many sprays of single aster-like flowers in September. 3 to 4 ft. high. **Pink** or **White**. Each 40c.

Campanula (Bellflower)

Carpatica. Carpathian Harebell. A pretty species growing in compact tufts not over 1 foot high. The clear blue flowers are held erect on wiry stems. It begins blooming in June, continuing until frost. An excellent plant for the edge of your garden. Each 40c.

Cullimore. 1 ft. All summer. A hybrid form of *Carpatica* and other dwarf forms. More prolific than *Carpatica*. A nice plant for edging. **Blue** or **White**. Each 40c.

Persicifolia alba. 2 ft. A fine Bellflower with large, handsome, white, bell-shaped flowers. Each 40c.

Persicifolia, Wedgewood. 30 in. Similar to the above. Large, violet-blue flowers. Each 50c.

Poscharskyana. 6 in. A pretty and graceful, semi-trailing star-bell from Dalmatian cliffs. Blossoms of bright blue-violet for a long time. Each 45c.

Punctata. 2 ft. A Campanula similar to Canterbury Bells and has proved hardier under our trials. Rugged towers of big, pendent bells. Mixed colors. Each 40c.

Pyramidalis. Great Chimney Bellflower. 5 to 6 ft. The towering stems are loaded with saucer bells in pale to midblue. Small plants, each 30c.

Carnation

Cynthia. June until frost. A new Carnation for the garden, free flowering and fine for cutting. Pure shrimp-pink, waxy petals, entirely smooth at the edges. 2½-in. pot size, each 35c.; field clumps, each 50c.

Crimson King. A green-leaved double red Pink or garden Carnation; blooms all summer. Only semi-hardy but a very satisfactory plant. Each 35c.

Grenadin, Red. 1-yr. plants, each 30c.

Grenadin, Pink. 1-yr. plants, each 30c.

Pink Princess. 1 ft. Salmon-pink flowers; clove scented. 2½-in. pot size, each 35c.; field clumps, each 50c.

Catananche (Cupids-Dart)

Coerulea. 2 ft. Heads of pretty, deep blue flowers on long stems during July and August. A profuse bloomer. 1-yr. plants, each 30c.

Centaurea (Knapweed)

Dealbata. 18 in. Rose-pink flowers. Graceful, silvery leaves. Each 30c.

Macrocephala. 3 to 4 ft. July-Aug. A rugged, upright-growing plant, bearing large thistle-like golden yellow flowers. May be used as cut-flowers. Each 35c.

Clematis (Shrubby Clematis)

Davidiana. 2 to 3 ft. A very hardy border plant, and one that is free from all pests. Sweet-scented, blue flowers in the axis of the leaves. Plant is somewhat coarse. Suitable for back corners and "out-of-the-way" places. Each 50c.

Coreopsis

Lanceolata grandiflora, Mayfield Giant. 2 to 3 ft. Large, bright yellow daisy-like flowers on long stems all summer. Each 40c.

Verticillata, Golden Shower. 18 in. This semi-dwarf, golden yellow Coreopsis is always in bloom. Flowers 2 inches in diameter. Each 40c.

DIANTHUS (HARDY PINKS)

Improved Shasta Daisies

Double Supreme. 2½ ft. A fine semi-double Daisy of good substance. Flowers 3½ inches, on 24-inch stems. Clumps, each 50c.; small plants, each 35c.

D. 1. A selected Daisy having several rows of narrow and cut petals, giving a somewhat shaggy appearance. Flowers 3 to 4 inches in diameter, with yellow center. Each 40c.

Giant Chiffon. 1 ft. Pure white, fully double flowers. A dwarf variety for front of border. Clumps, each 50c.; small plants, each 35c.

Majestic. 2½ ft. Large white flowers, 5 to 6 inches in diameter, on straight long stems. A healthy grower. Clumps, each 50c.; small plants, each 35c.

Mount Shasta. 2 ft. The pure white, double flowers have a high crested center. Blooms all summer. Small plants, each 40c.

White Shasta Daisies

Alaska. 2 to 3 ft. Summer. One of the best Shasta Daisies. Large white flowers, 4 to 5 inches in diameter, on long stems. Each 40c.; 1-yr. plants, each 30c.

Diener's Giants. A mixture of large single and double Daisies. Field clumps, each 50c.; 1-yr. plants, each 35c.

Giant Daisy

4 to 5 ft. A tall, small-flowered, white Daisy blooming in the fall. Plant at rear of the border. Each 40c.

Dianthus (Pinks)

The delightful sweet-scented garden Pinks are always welcome in any garden. They are easy to grow and give a large number of flowers for cutting.

Deltoides. Maiden Pink. Small delicate blooms carried above fine feathery foliage. Suitable for edging or the rock-garden. **Red.** Each 30c.

Dinah. 12 in. An improved border Pink. The flowers are perfectly formed, of a deep Persian rose color with a maroon center. Very fragrant. Each 40c.

Jock Hybrids. A neat, low-growing Pink, blooming very profusely. Mixed colors, single and double flowers. Each 40c.

Mrs. Dina Weller. Beautiful very dwarf, globe-shaped plants with deep green foliage. Large, single flowers of a delicate salmon color, with a bright carmine ring in the center. Each 50c.

Double White Pink. Blue-green foliage. Flowers double, 2 inches in diameter, white, slightly speckled with red in the center. Fragrant. Blooms most of the season. Large size, each 50c.; small size, each 30c.

Plumarius semperflorens. 1 ft. An everblooming hardy garden Pink. Blooms most of the summer. Double and single flowered. Mixed colors. Each 40c.

Plumarius scoticus. A free-flowering strain producing mostly large, double flowers. Good for cutting. Each 60c.

Wallace Red. Semi-double, brilliant crimson-red flowers on 8 to 12-inch stems. Blooms all summer. Sturdy, compact growth. Potted plants, each 30c.; clumps, each 50c.

Winteri. A Pink of striking beauty and good form. Pure colors; fragrant. Each 40c.

Improved Dwarf Pinks

Little Joe. 6 in. A fine free-blooming dwarf Pink with large crimson blossoms. Each 40c.

Tiny Rubies. The miniature plants produce carnation-like pink flowers on stems 4 to 5 inches high. Each 40c.

Beautiful Delphiniums

"Small plants" are 1-yr., field-grown plants of blooming size.

Giant Pacific. This is an American production, noted for its long spikes and huge flowers of fine texture and color. It is more resistant to disease than many other strains. Mixed shades of blue. Field clumps, each 60c.; small plants, each 40c.

Cameliard. Lavender, with white eye. Small plants, each 40c.

Galahad. Pure white. Field Clumps, each 60c.; small plants, each 40c.

King Arthur. Royal-violet with white eye. Each 40c.

Summer Skies. Light blue with white bee. Flowers medium size. Very prolific. Each 40c.

Note. Named varieties of Delphinium do not always come true to color.

Blackmore & Langdon. An unsurpassed strain of English hybrid Delphiniums. Every plant produces an excellent spike of flowers. The color-range is fine and the colors are clear and bright. There is a good proportion of large double and semi-double flowers. Small plants, each 30c.

Belladonna, Cliveden Beauty. 2 to 3 ft. An improved strain of this ever-popular light blue Delphinium. The flowers are not as large as in the hybrid strains, but the plant bears many more spikes of flowers. Field clumps, each 40c.; small plants, each 30c.

Fanny Stormonth. An improved English strain of Belladonna. Very vigorous, and a heavy bloomer. Field clumps, each 40c.; small plants, each 30c.

Bellamosum. Dark blue, similar to Belladonna. Field clumps, each 40c.; small plants, each 30c.

Lamartine. 2 to 3 ft. Marine-blue with white eye. Field clumps, each 40c.; small plants, each 30c.

Lyondel Hybrids. 4 ft. A new strain with massive spikes of large flowers in a wide range of beautiful colors. Plants very vigorous. Each 40c.

Wrexham or Hollyhock Strain. A well-known English strain of hybrid Delphinium. Mixed colors. Field clumps, each 40c.; small plants, each 30c.

Chinense. Chinese Delphinium. A pretty variety of medium height, fine feathery foliage and gentian-blue flowers. Small plants, each 30c.

6 Delphiniums of a kind at the price of 5

Any 12 Delphiniums of equal price at the price of 10

Dicentra (Bleeding-Heart)

Spectabilis. 1 to 2 ft. Spring. Favorite hardy perennial plants with deeply cut foliage and long racemes of graceful pink heart-shaped flowers. Needs part shade. Each 85c.; smaller plants, each 30c.

Eximia. Plumy or Fern-leaved Bleeding-Heart. 15 in. Pink blooms all summer. Foliage finely cut and very attractive. Plant in a shady place away from strong wind. Each 50c.

Doronicum (Leopards-Bane)

Caucasicum. A spring-flowering perennial with large, yellow, daisy-like flowers. Suitable for cutting. Each 40c.

Echinops (Globe Thistle)

Ritro. 2 to 3 ft. Showy thistle-like plants with globular heads of deep metallic-blue flowers during July. Can be dried and used as straw flowers. Small plants, each 35c.

Edelweiss

6 in. A low edging plant densely covered with whitish wool. The small yellow flowers are surrounded by a star-like cluster of woolly floral leaves. Plant in well-drained soil in a sunny exposure. Each 40c.

Funkia (Plantain-Lily)

Lanceolata. 2 ft. The common Funkia with narrow leaves and lavender flowers. Starts blooming in August. Suitable for sun or shade. Each 40c.

Subcordata grandiflora. Aug. Large leaves; pure white, lily-shaped flowers. Plant in shade. Each 50c.

Thomas Hogg. A strong-growing variety for shade or sun. Likes moisture. Large clear leaves with a silver edging; lavender flowers. Each 50c.

Variegata. Variegated foliage and lavender flowers. Each 40c.

Gaillardia (Blanket-Flower)

Showy, very free-blooming perennials, growing from 2 to 3 feet tall.

Dazzler. Large golden yellow flowers; rich maroon center. Each 40c.

Goblin. A dwarf variety of Gaillardia. Plant vigorous, with many showy, deep red flowers with yellow border. Each 40c.

Portola Hybrids. The flowers are very large, brilliant scarlet intensified by golden yellow tips. Each 40c.

Yellow. 1-yr. plants, each 25c.

1-yr. plants of any variety, each 25c.

Gypsophila (Babys-Breath)

Bristol Fairy. We recommend this choice double-flowered variety as being far superior to the common single Babys-Breath. Blooms all summer. Established plants are about 3 feet in diameter when in bloom. Small plants, each 50c.

Mangini. Masses of large and pretty pink and white flowers, valued for misty border effects. Earlier than Oldhamiana. Each 40c.

Oldhamiana. Tangles of airy, misty light pink blossoms with white throat. Florets $\frac{1}{4}$ inch in diameter. Blooms in fall. Each 40c.

Oldhamiana, Flamingo. A double variety similar to Bristol Fairy, with pale pink flowers. Blooms later than Bristol Fairy. Small plants, each 75c.

Paniculata. The common small white-flowered Baby's-Breath. Small plants, each 30c.

Rosy Veil. A dwarf pink continuous-blooming Babys-Breath. Each 50c.

Snow White. An improved single-flowered form of the common Babys-Breath. Each 30c

Geum (Avens)

Several clumps of Geum will help to add distinction to your garden.

Borisi. An evergreen species with foliage rather prostrate and branching flower stems. Orange-colored flowers produced abundantly. Each 40c.

Fire Opal. Dazzling orange-scarlet flowers often 3 inches across, produced abundantly. Very hardy. Each 50c.

Globularia

Willkommi. 1 ft. A mat-like plant with dark green leaves packed to turfy density. Fluffy blue, button-like flowers. Each 50c.

Helenium (Helen's Flower)

Chippersfield Orange. 4 ft. Aug.-Sept. Large heads of copper and gold, daisy-like blooms. Clumps, each 50c.; small plants, each 30c.

Heliopsis (Orange Sunflower)

Lemoine's Giant. 3 ft. A very brilliant border plant resembling a small sunflower. Bright yellow flowers, single to double. Blooms over a very long period and makes a good display in the border. Suitable for cutting. Clumps, each 45c.; small plants each 30c.

Heuchera (Coral-Bells)

Selected Red. A low-growing plant from which arise 18-inch stems bearing many dainty red, bell-like flowers, suitable for cutting. Large plants, each 50c.; small plants, each 30c.

Sanguinea splendens. Flowers bright vermilion. Each 40c.

Hibiscus (Mallow)

4 to 5 ft. Summer. Showy plants for the rear of the border. Large red flowers. Each 40c.

Iberis (Candytuft)

Jucunda. A very dwarf variety with rosy lilac flowers. Prefers a sandy soil in a sunny situation. Each 45c.

Sempervirens. Dark green foliage covered with a mass of white flowers in the spring. Each 40c.

Snowflake. Plant more compact and flowers larger than Sempervirens. Each 50c.

Inula

Ensifolia. 1 ft. A hardy perennial with linear leaves and large yellow, daisy-like flowers in spring. Each 40c.

Isatis (Golden Babys-Breath)

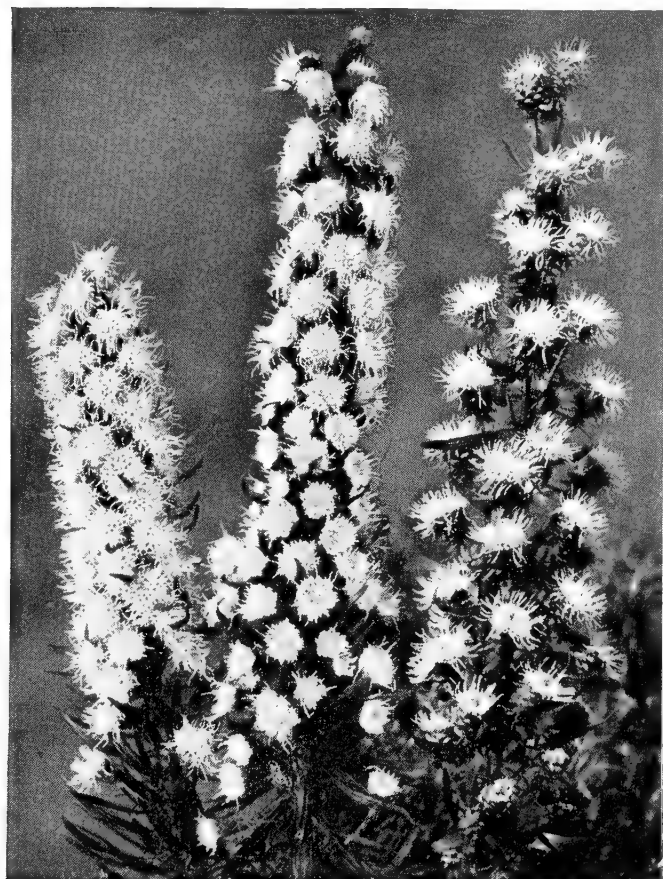

Glauc. 2 to 4 ft. Foliage silvery gray-green. Cloud of fine yellow flowers in July. Plant toward the back of the border. Each 35c.

Lathyrus (Everlasting Pea)

Latifolius. A vine-like plant with large racemes of sweet-pea-like flowers. Each 30c.

Lavandula (Lavender)

Munstead Strain. Used in making sweet bags and sachets. Large, sweet-scented blue flowers in abundance. Early blooming. Each 50c.

LIATRIS SCARIOSA (KANSAS GAYFEATHER)

Liatris (Kansas Gayfeather)

A clump of Liatris with its characteristic grass-like leaves and 5-foot spikes terminated with purple flowers in August will help to make your garden different.

Pycnostachya. Aug.-Sept. Long spikes of rose-purple flowers. Each 40c.

Scariosa, September Glory. Long spikes of purple flowers. Each 40c.

Linum (Flax)

Flavum. Yellow Flax. Transparent yellow flowers. Each 45c.

Perenne. Blue Flax. Bush-like plants for an open, warm place. Plant early for best results. Produces an abundance of blue flowers daily throughout the summer, which usually close about noon. Very showy when planted in masses. Each 40c.

Lupinus (Lupine)

Russell Hybrids. 3 to 5 ft. Long beautiful spikes of flowers. Many colors. Each 35c.

Lychnis

Viscaria. German Catchfly. 6 to 20 in. Leaves grass-like. In spring the plant is covered with masses of rose-pink flowers. Each 40c.

Lythrum (Loosestrife)

Morden's Pink. A choice member of the Lythrum family. The flower spikes are a lovely clear pink that blends well with the other colors in the garden. Will grow in wet or dry places. Each 40c.; small plants, each 30c.

The Beacon. 3 ft. July-Sept. Long-lasting spikes of large clear deep rosy red flowers. Each 40c.

Monarda (Bergamot)

Monardas are easy of culture, thriving in any good soil. Will withstand some shade.

Croftway Pink. Large flower heads of a beautiful soft pink, suitable for cutting. Each 50c.

Mrs. Perry. Large, crimson flowers. Each 40c.

Scarlet. Bright scarlet flowers. Each 40c.

Myosotis (Forget-Me-Not)

6 in. Everyone is familiar with the charming bright blue flowers of the Forget-Me-Not. They prefer partial shade and plenty of moisture. Blooms all summer. Each 40c.

Nepeta (Ground Ivy)

Mussini. A good plant for permanent edging. Foliage soft gray-green. Lavender, spike-like flowers. Each 40c.

Oenothera (Evening Primrose)

Sun-loving plants, doing well in ordinary garden soil. Showy yellow flowers in early summer. Each 40c.

Papaver (Oriental Poppies)

All Poppies are in Cloverset pots.
(Cannot be sent by mail.)

Clumps of Oriental Poppies throughout the border will add brightness to your gardens. During the summer Poppies have a resting period and all leaves disappear. They start a new growth of leaves in the fall. Their large, cup-shaped blooms are most attractive.

Big Jim. Oxblood-red blooms. Each 40c.

Helen Elizabeth. Soft pink; petals crinkled. Each 40c.

John III. Lovely deep coral-pink. Each 40c.

Mrs. Perry. Salmon-pink. Each 40c.

Scarlet. Each 40c.

HARDY PHLOX

Iceland Poppies

Kelmscott Strain. From a cluster of green leaves arise long stems bearing large, graceful, cup-like flowers in many delicate tints—pink, white, apricot, orange, and various combinations. Each 35c.

Platycodon (Chinese Balloon-Flower)

Grandiflorum. The Chinese Balloon-Flower gets its name from the interesting balloon-shaped buds which open into large bells. It blooms during the summer when there is likely to be a scarcity of flowers. The blooms are borne on 2 to 3-foot spikes and last a long time. All dead blossoms should be removed. As the Platycodons do not start growth until late in the spring, part of the old stem should be left on in the fall when cleaning the garden or a stake should be placed near it. This will prevent destroying the plant when working in the garden early in the spring. **Blue, White** or **Shell-Pink.** Each 40c.

Potentilla

Warrensi. A lovely plant for the sunny border. Large, pure yellow blossoms all summer. Each 30c.

Pardanthus (Blackberry-Lily)

Chinensis. An odd and unusual, perfectly hardy perennial with green iris-like leaves. The small, daintily black-spotted orange lily-like flowers are borne on 24-inch stems. Seed pods, when ripe, resemble blackberries. Each 40c.

Pentstemon (Beard-Tongue)

Confertus. 2 to 3 ft. Showy clusters of deep blue flowers. Each 50c.

Garnet. A large-flowered dark red Pentstemon, blooming continuously until frost. Keeps well as a cut-flower. Needs winter protection. Not hardy in Minnesota except under ideal conditions, but is worthy of a place in your garden and should give an abundance of flowers the first season. Each 50c.

Firebird. Similar to the above except in color, which is a beautiful ruby-crimson. Each 50c.

Spring-blooming Phlox

Subulata. Moss Phlox. A very attractive and satisfactory plant for the rockery or edge of the hardy border. Plant in groups of 3 to 6 plants and you will have a fine display of color about the end of May. Will grow in partial shade. **Rose, Purple.** Each 40c.

Subulata, Emerald Cushion. Dark green foliage and blue flowers. Each 40c.

Subulata, Emerald Cushion Pink. Each 40c.

Summer-flowering Phlox

Groups of Phlox are especially useful for keeping your garden cheerful and colorful during the summer.

Africa. Brilliant carmine-red with blood-red eye. Well-shaped flower heads; large florets. Each 40c.

American Beauty. Deep rose. Each 40c.

Border Queen. An outstanding dwarf Phlox with large florets of watermelon-pink. Has been very satisfactory in our garden trials for several years. Each 40c.

Bright Eyes. Brilliant red with a dark eye. Each 40c.

Champs Elysee. Dark purple. Each 40c.

Charles H. Curtis. A new Phlox of great merit. A strong grower with good clean foliage; flowers sunset-red. Each 40c.

Enchantress. Bright salmon-pink with dark eye. Each 40c.

Flash. Crimson-red. Each 40c.

Graf Zeppelin. White with a vermilion-red eye. Each 40c.

July Lights. Medium height. Flowers soft light red with a blood-red eye. Each 40c.

La Vague. Tall. Flowers mauve with cherry-red eye. Each 40c.

Lillian. A beautiful early salmon-pink. Each 40c.

Miss Lingard. The best early white; pale pink eye. Continuous blooming throughout the summer. A most desirable variety. Each 40c.

Painted Lady. Flowers silvery pink-salmon with red eye. Each 40c.

Rheinlander. Fine old-time variety. Salmon-pink. Each 40c.

Ruby Lee. 2 ft. Large plum-red flowers. Healthy, vigorous growth. Each 40c.

San Antonio. Dark blood-red. Each 50c.

Special French. Fine blush-pink with salmon eye. Each 40c.

Starlight. Violet-red shading to lilac. Each 40c.

Von Hochberg. Dark red. Each 40c.

Von Lassburg. Tall. Large, pure white flower. Each 40c.

World Peace. New. A strong grower. Large, pure white flowers. Each 50c.

Mixed Shades of Pink and Salmon. Each 35c.

Physostegia (False Dragonhead)

Summer Glow. Good plants for the sunny border; of easy culture. The deep pink flowers are borne on terminal spikes, and will last a long time when cut. Each 40c.

Polemonium (Jacob's Ladder)

Coeruleum. 1 to 3 ft. Of easy culture and will grow in partial shade. Blue, five-lobed, bell-shaped flowers. Small plants, each 30c.

Richardsonii. 18 in. Bright blue flowers in abundance. Small plants, each 30c.

Primula (Primrose)

Old-time garden favorites. Primroses prefer a situation protected from noon and afternoon sun and drying winds. Coolness, some shade, ample moisture, and medium light woodland soil gives best results.

Mixed Colors. Each 40c.

Pyrethrum (Painted Daisy)

Showy daisy-like flowers on long stems. Suitable for cutting.

Robinson's Dark Crimson. A choice large-flowered, crimson Painted Daisy. Small plants, each 30c.

Robinson's Hybrids. Very large flowers. Mixed colors, red, white, pink. Clumps, 40c.; Small plants, each 30c.

Red Shades. Clumps, each 40c.

Rose. Mixed shades of pink. Small plants, each 30c.

Ranunculus (Double Buttercup)

An upright double yellow Buttercup, blooming in early June. Flowers similar to the double feverfew. Good for cutting. Each 40c.

Rudbeckia (Coneflower)

Golden Glow. (Sass Variety.) 6 ft. A good plant for the rear of the garden. Bright yellow flowers similar to small double chrysanthemums. Each 35c.

Golden Globe. 5 ft. Large, fully double, globe-shaped yellow flowers. Each 40c.

The King. 3 ft. An improved purple Coneflower with broad, deep crimson-red petals and rich coppery bronzy cones. Each 50c.

Purpurea. 4 ft. The flower consists of a bronze, cone-like center surrounded with drooping crimson petals. Clumps, each 40c.; small plants, each 30c.

Salvia

Jurisici. Free-blooming, rock-garden species with graceful spikes of violet-blue. Each 40c.

Pratensis, Blue. 2 ft. Showy dark blue flowers in June. Small plants, each 30c.

Pratensis rosea. 2 ft. Rosy pink, wide, heavy flower plumes in June. Clumps, each 45c.; small plants, each 30c.

Statice (Sea-Lavender)

Latifolia. 2 ft. Summer. The leathery leaves form a tuft at the ground from which arise several stems bearing numerous small lavender flowers similar to Babys-Breath. Give full sunlight. Flowers may be dried and kept a long time. Each 40c.

Scabiosa (Pincushion-Flower)

Caucasica. 18 in. Lovely daisy-like flowers of a soft shade of lavender. Each 40c.; small plants, each 30c.

Sedum (Stonecrop)

Spectabile, Brilliant. 1½ ft. This group of Sedums with its thick heavy stems, leaves and flowers offers a strong contrast to other garden plants. Foliage light green; flowers deep rose-pink. Keep a long time as a cut-flower. Each 40c.

Spectabile variegatum. Foliage variegated green and white. Each 40c.

Spurium. A low-growing Sedum suitable for ground-cover or the rockery. Red flowers in July. Each 35c.

Thalictrum (Meadow-Rue)

Adiantifolium. 2 ft. A plant grown largely for its maidenhair-fern-like foliage. Small white flowers in June. Each 40c.

Aquilegifolium. 3 ft. Foliage similar to that of Aquilegia. Mixed colors, each 40c.

Thermopsis (Yellow Lupin)

Caroliniana. A good yellow accent plant. Spikes of yellow pea-like flowers in June. Each 40c.

Tradescantia (Spiderwort)

Tradescantias do well in partial shade.

Purple Dome. Tradescantias bloom over a long period. They do not need any particular care; insects do not bother them. Foliage is decorative. Purple Dome is a fine grower and blooms freely. Flowers are brilliant purple. Each 40c.

Mixed Shades. Each 40c.

Veronica (Speedwell)

Blue Spire. 2½ ft. July-Aug. An improved form of *V. spicata*. The Speedwells make excellent plants for the sunny border. Long spikes of blue flowers. Very hardy. Each 40c.

Crater Lake. Deep lake-blue flowers. Each 40c.

True Blue. 1 ft. June. A dwarf form of Speedwell covered with striking blue flowers. Each 40c.

Valeriana (Garden Heliotrope)

Officinalis. 3 to 4 ft. Heads of rose-tinted flowers during June and July. Fragrant. Each 40c.

Verbascum

Phoeniceum Hybrids. 2 ft. The plant consists of a group of basal leaves from which arise graceful spikes of flowers. Mixed colors. Each 40c.; smaller plants, each 30c.

Vinca (Trailing Myrtle)

Minor, Bowles' Variety. An excellent ground-cover plant with dark green glossy leaves and blue flowers. Each 40c.

VERONICA, BLUE SPIRE

FOR GROWING ON - UTILITY PLANTS - Economical

Our **Utility Plants** are young seedlings mostly 1 year old. Nearly all will produce some bloom this year. Not less than 6 of a variety sold. Mail orders for Utility Plants must amount to \$2.00 or more, unless included with orders for other plants.

The following varieties will be available this spring:

6 of a variety, 50c.

Agrostemma
Anchusa, Dropmore Variety.
Aquilegia, Mrs. Elliott's Hybrids.
Longissima
Mrs. Nichols
Snow Queen.
Clematiflora.
Arabis alpina, Snowcap.

Potentilla Warrensi.
Purple Cone Flower.
Pyrethrum (Painted Daisy).
Rose
Hybrids.
Verbascum.

HEMEROCALLIS • Daylilies

Use Daylilies freely in your garden. They probably possess more good qualities than any other group of flowers. The iris-like leaves and graceful flowers on long stems will add charm to any garden or shrubbery border. They are very hardy and bloom freely when established. The blooming period lasts from two to four weeks for each variety. They will thrive on any soil with good drainage, in sun or partial shade, and require but little attention. Daylilies are not bothered with insect pests or diseases.

August Pioneer. 3 ft. Aug.-Oct. Medium-sized flowers of a chrome-orange color. Outer half of petals flushed red. Each 75c.

Baronet. 24 in. June and Sept. Flowers full, sprightly crimson-orange; remains open in evening. Each \$1.50.

Caballero. 3½ ft. July-Aug. Petals vermilion-red; throat and sepals golden yellow. Fragrant. Each \$1.50.

Circe. (Stout.) 36-48 in. July. Soft lemon-yellow flowers of medium size. Each 40c.

Gold of Ophir. 4 ft. July-Aug. Waxy golden yellow flowers on strong stems. Dark green foliage. Long period of bloom. Each 40c.

Hyperion. 4-5 ft. July-Aug. A very beautiful soft yellow-flowered, fragrant Daylily. Plant vigorous. Each 60c.

Kwanso. 4 ft. July-Aug. Vigorous-growing plant with rich orange-colored double flowers. Each 40c.

Linda. 3 ft. July-Aug. Large flowers with crinkled petals; base golden yellow with cinnamon fleck and red eye. Sepals clear yellow. Each 60c.

Mikado. 36 in. June-July. Orange flowers with a mahogany-red spot on each petal. Each 40c.

Mrs. W. H. Wyman. 42 in. July-Aug. Lovely light lemon-yellow blooms. Each 40c.

Old Ivory. 3 ft. June-July. Jersey cream shade; a delicate flower slightly whorled. Each \$1.00.

Patricia. 2½ ft. July-Aug. Pale yellow with tinge of lemon-chrome; petals recurving. Each 60c.

Princess. 2½ ft. July. Clear lemon-yellow, wide overlapping petals. Good evenings. Each \$1.50.

Rajah. 3½ ft. July-Aug. Large, gaily colored English red blooms, with conspicuous eye-zone; throat pale orange. A heavy bearer. Each 85c.

Sachem. 3½ ft. July. Medium large flower. Dark red, yellowish orange throat. Each \$1.00.

Sunset. 42 in. July-Aug. Bright crimson-maroon flowers with deep yellow throat. Each 60c.

Theron. 2½ ft. July-Sept. Large, dark mahogany-red flowers. Outside of throat dark red, inside orange. Each \$1.00.

Vulcan. 2½ ft. July-Aug. Velvety maroon with faint golden brown midrib; throat golden orange. Fragrant. Each \$1.00.

HEMEROCALLIS BORDER

LOVELY ANNUALS *for continuous bloom*

All annuals are flat-grown plants, once transplanted and will give splendid results

Except where noted, all are 40c. per doz.; by mail, 45c. per doz.; 100 of a kind \$2.50; by mail, \$2.80

AGERATUM

Blue Perfection. A tall variety for cutting, supplying dense heads of fluffy, light blue flowers so necessary in many bouquets.

Midget Blue. A uniform dwarf Ageratum that produces an abundance of blue flowers. Excellent for edging your garden.

Riverside. A very choice dwarf Ageratum for edging. Blue flowers grown from cuttings. 4 for 25c.; doz. 70c.

ALYSSUM

Little Gem. The ideal white-flowered edging plant. The plants are completely covered with snow-white bloom.

Violet. Similar to the above except in the color of the flowers. Shear off the dead blooms occasionally.

ANTIRRHINUM (Snapdragon)

Selected varieties of the ever-popular Snapdragon in the following colors: **Pink, Light Pink, Red, White, Yellow, Terra-cotta** and **Yellow Shaded Rose**, and **All Colors Mixed**.

Tetra Snapdragons. A new group of Snapdragons with larger, stronger and huskier stems and flowers. Mixed colors, doz. 50c.

Pan-America Pink. Deep rose-pink. Very fine. Doz. 75c.

Yellow. Huge spikes and large fringed florets. Doz. 60c.

ASTERS

Giant Branching. Wilt resistant. Mixed colors.

COSMOS

Sensation. A very large-flowered variety. Blooms are larger if disbudded. **White** and **Pink**.

LOBELIA

Crystal Palace. Bushy plants covered with small, dark blue flowers. Foliage has a reddish tinge. A very popular edging plant.

MARIGOLDS

Easily grown on any soil and offering an abundance of cut flowers.

Glitters. New, 2½ ft. Large clear yellow, double chrysanthemum blooms.

Guinea Gold. 2½ ft. Carnation-flowered type producing flowers 2 to 2½ inches across, of brilliant orange flushed with gold. Very choice.

Mammoth Mum. 2½ ft. The light sulphur-yellow flowers are fluffy and ball-like in form, 3½ inches across.

Mission Giants, Limestone. Blooms about two weeks earlier than other African types. Produces almost perfect, ball-shaped, chrysanthemum-like flowers. 3 to 4 inches in diameter. Soft lemon-yellow.

Yellow Supreme. 2 to 2½ ft. A large bloom of rich lemon-yellow. Broad, loose, frilled petals and honey fragrance. A superior variety.

5 Choice Dwarf Varieties

Cupid. Primrose-yellow.

Naughty Marietta. Single golden yellow flowers with a mahogany base.

Scarlet Glow. One of the reddest Marigolds.

Sunkist. Golden orange, anemone-type flowers.

Spry. Extra dwarf. Golden yellow, bordered maroon.

Yellow Pygmy. Double; lemon-yellow.

PETUNIAS

Bedding. Very easy to grow, requiring little attention and giving a mass of color in the garden all summer long. In separate colors: **Dark Blue, Light Blue, Deep Pink, Light Pink, Salmon, Red, White, Rosy Morn**, and **All Colors Mixed**.

Fire Chief. 1950 Gold Medal winner. Brilliant red. Dwarf habit.

Dwarf California Giants. Large ruffled flowers in various color combinations. This strain needs good soil and more care than the regular bedding Petunias.

PORTULACA (Moss Rose)

An excellent low-growing plant for a hot dry place. Our strain contains both single and double flowers in a wide color range.

SALVIA

Red. Early and late varieties. Spikes of bright red flowers in fall.

Blue. Light blue spikes. Fine for cutting.

SCABIOSA (Pincushion-flower)

Fast-growing annuals and an important cut flower. Medium-sized flower heads on long, graceful stems.

Mixed Colors.

VERBENA

Low-growing, colorful annuals suitable for edging or mass bedding. **Mixed Colors.**

ZINNIA

Dahlia and Giant-flowered. Separate colors: **Deep Rose, Soft Pink, White, Orchid-Lavender, Red, Salmon, Violet, Yellow, All Colors Mixed**.

Lilliput. Small flowers. Very free blooming. **Salmon-Rose, Red, Mixed Colors.**

PERKINS JUMBO PANSIES

A selected strain of very large Pansies in a fine mixture of colors. Doz. 75c. By mail 85c. per doz.

Potted Annuals

Cobaea scandens. A rapid-growing climber. Bell-shaped flowers, lilac to purple. Each 40c.

Everblooming Dahlias, Unwin Hybrids. Dainty small-flowered Dahlias with single to double blooms in a great profusion of color. Prefers partial shade. Each 25c.; doz. \$2.50.

Morning-Glory, Heavenly Blue. Huge, cheer-giving, light blue flowers in great profusion. 3 plants to a pot. These should not be separated. Each 40c.

Petunias, California Giants. Mixed colors. Each 25c.; 6 for \$1.25.

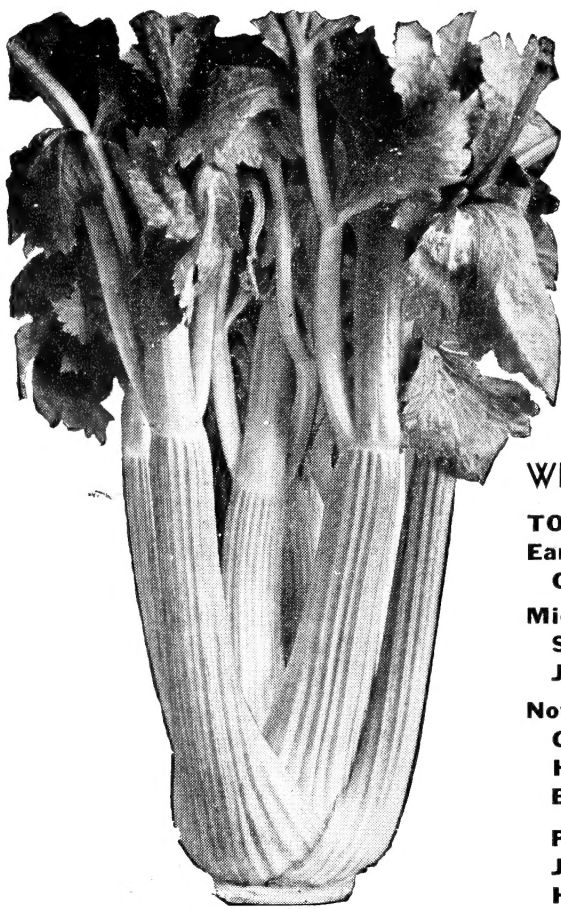

Packing and Postage on potted plants, 10c. each; 2 for 15c.

NOTE: We will also have a nice assortment of potted plants suitable for window-boxes and cemetery planting.

Plant low-growing annuals 6 inches apart each way.

Plant tall Marigolds and Zinnias 12 inches apart each way.

All prices in this catalog are subject to change
